[Blackout Policy](#)

Blackout / Meetings and Side Events Policy

To protect the integrity of the event programme, companies may not organise meetings or activities that compete with official sessions.

- No scientific symposia, lectures, educational events, or "meet-the-expert" style sessions may take place outside the event venue during the event dates.

- All industry sessions must take place within the event venue and must be formally booked through the Sales Team.
- Closed meetings and social events (invitation-only) are permitted only during outside the official blackout hours and must not clash with the event programme or Opening Ceremony.
- Internal staff meetings are permitted; however, if attended by event participants, they are also subject to the blackout policy and may not take place during programme hours.

The Society expects all partners to respect these guidelines so delegates can fully engage with the official event content.
